

WE DON'T NEED PERMISSION TO FEED HUNGRY PEOPLE

The police have been caught giving out flyers which claim that it's illegal to give out free food without an expensive permit from the city.

This is a shameful effort to bully community groups which provide life-sustaining services to the homeless. It is war against the poor.

If the government makes sharing illegal, then we have no choice but to be criminals. Not just because our conscience requires it, but because helping each other is the only way we will all survive.

We think everyone should disobey the prohibition against sharing food. If you are harassed or targeted, please get in touch!

Food is a human right!
